

the body and if you use the coherent power of positive emotions such as love and appreciation, you put peace, quality, and vital energy back into your life.

Evening session deals mainly with the Radiant Energies Balance (REB)sm protocol for balancing the Autonomic Nervous system using the Radiant Circuits of the energy/information system with theory and demonstration of the method. The full day sessions involve practice and discussion of the various methods. You learn how to skillfully use the many "buttons and switches" which control your energy/information system. Free follow up practice and reinforcement sessions will be arranged for interested class participants.

COURSE 2. THE RADIANT ENERGIES BALANCE (REB)sm PROTOCOL: A FLEXIBLE, COMPREHENSIVE, THERAPEUTIC and TRANSFORMATIVE PROTOCOL©

Levels of REBsm training:

Level I: Basic Fundamentals of REBsm (an introduction to the protocol with practice in the modules. Semi professional level, 12 hours).

Level II: Certified REBsm Practitioner (prerequisite Level I; more advanced training and more theory with at least 5 case studies. Professional level, 12 class hours plus practicum time)

Level III: Master REBsm practitioner. (prerequisite Level II; more advanced training and more theory with at least 10 case studies; some must deal with significant and difficult issues. Professional level, 12 class hours plus practicum time)

Level IV: Certified REBsm Trainer (prerequisite Level III; will conduct a satisfactory supervised Level I training. 12 hours).

The Radiant Energies Balance (REB)sm protocol is one of the simplest, most flexible and efficient approaches to tapping into and correcting imbalances in the body's energy system. It can easily be incorporated into many more traditional approaches, especially cognitive/imagery methods.

The protocol builds on leading edge approaches from trauma/PTSD therapy and psychophysiology while incorporating approaches from several Energy/Information Psychology systems: Eden's Energy Medicine, HeartMath, EMDR, Brain Gym, Integrative States Therapy, One Eye Technique, NLP, One Brain, Focusing, and Reiki.

The REBsm posture engages the powerful "Radiant Circuit" system which serves as a "hyper link" to all of the body's energy system. With intention, the "Radiant Circuit" system automatically corrects and balances where ever needed. The basic REBsm posture uses Eden's triple warmer/spleen "hug" and connects the central and governing meridians. These four meridians all have dual functions of regular meridians as well as being Radiant Circuits (curious or extraordinary meridians or strange flows). The protocol balances the autonomic nervous system and, from a spiritual development perspective, engages the Radiant Circuits which are the principal channels for "Yuan chi" energy which, in the Chinese model, represents ancestral energy or the energy of the soul.

COURSE 5. INTRODUCTION TO THE HeartMath SYSTEM©

A 2-3 hour introductory course for the general public on the research background and Freeze Frame approach of the HeartMath System. A very simple and effective method to bring peace to your life. Taught also as part of the other courses (Numbers 1, 2 & 3).

COURSE 6. RAPID ELIMINATION OF SPECIFIC PHOBIAS AND FEARS©

In this one day course (6 hours) for the general public you will learn simple, effective and rapid ways to get rid of any specific troubling phobias such as performance anxiety and stage fright (e.g. fear of public speaking), test anxiety; fears of heights, enclosed spaces, crowds, spiders and insects, snakes and other wiggling things, various animals, thunder/lightening etc.etc.etc. You recognize that these fears are irrational or inappropriate but seem to be "stuck" with them, unable to get them out of your bodymind system with out great effort (if at all). You will also learn a technique to eliminate your self sabotage tendencies. Many therapists have used and taught these techniques to many ordinary people with great success. People not only learn how to help themselves but, since the techniques are so simple, they have used them to help others and taught others how to help themselves.

Following an introduction to this approach explaining how "All negative stuck emotions are caused by disturbances in the bodymind energy system" (acupressure points, meridians, and energy centers-chakras) and describing my use of these techniques in many different situations, participants will watch a demonstration of the technique on one or more of the participants while the other participants follow along using the approach on their own issues. Then the participants will pair up to use the technique on an issue or problem of their choice while the instructor coaches them. Participants leave the session with a plan and commitment to use the techniques in their life.

COURSE 7. RAPID REDUCTION OF SPECIFIC ADDICTIVE URGES©

In this one day course (6 hours) for the general public you will learn simple, effective and rapid ways to reduce specific troubling addictive and obsessive/compulsive urges such as urges to eat specific foods (chocolate, peanut butter, "Snickers bars", ice cream, coffee, pop, doughnuts, etc.), drinking and drugs (alcohol, heroin, cocaine, marijuana, prescription drugs, over-the-counter medications, etc.), gambling, shopping, compulsive urges to perform specific behaviours (nail biting, hair pulling, head scratching, checking, hand washing, counting, etc.), and obsessive thoughts and fears. You will also learn a technique to eliminate your self sabotage tendencies. You recognize that these urges are irrational or inappropriate but seem to be "stuck" with them, unable to get them out of your bodymind system without great effort (if at all). Many therapists have used and taught these techniques to many ordinary people with great success. People not only learn how to help themselves but, since the techniques are so simple, they have used them to help others and taught others how to help themselves.

Following an introduction to this approach describing the bodymind energy system (acupressure points, meridians, and energy centers-chakras) and describing my use of these techniques in different treatments for addictive and obsessive/compulsive urges, participants will watch a demonstration of the technique on one or more of the participants while the other participants follow along using the approach on their own issues. Then the participants will pair up to use the technique on an issue or problem of their choice while the instructor coaches them. Participants leave the session with a plan and commitment to use the techniques in their life.

BRING YOUR FAVORITE ADDICTIVE OBJECT TO THE WORKSHOP SO THAT YOU CAN PROVE TO YOURSELF THAT THE URGE IS REDUCED. MOST PEOPLE WILL NEED TO REPEAT THE TECHNIQUES WHEN THE URGE GETS TRIGGERED AGAIN. HOWEVER, THE INTENSITY AND FREQUENCY OF THE URGE WILL DECREASE OVER TIME. THE TREATMENT LASTS FOR VARYING AMOUNTS OF TIME DEPENDING ON YOUR STRESS LEVEL. SINCE THE TREATMENT IS SO EASY TO REPEAT YOU CAN REDUCE YOUR INAPPROPRIATE URGES IN MINUTES ANY PLACE AND ANY TIME YOU NEED TO.
